TREATY OF PEACE SIGNED BY GOULD AND HARRIMAN

Each Will Get Ocean to Ocean
Connections With Erie
Eastern Outlet.

Gould Will Raise Enough
Money to Do Work.

HARRIMAN TO BE IN CONTROL

New York, July 29.—By a treaty of peace between Edward H. Harriman and George J. Gould, which Wall street has heard was approved by both parties, today, immediately after Mr. Gould's arrival from Europe, Mr. Harriman becomes the dominating factor in the Gould railroad and the Erie railroad becomes the Eastern outlet for both the Harriman and Gould systems, giving them an entrance into Pittsburg.

Under this arrangement Mr. Harriman becomes the master of about 30,000 miles of railroad, main trunk, and scores of ocean liners. His Union Pacific system has about 16,000 miles of track, the Erie has about 2,500 and the Missouri Pacific nearly 12,000 miles. Mr. Gould will remain as president of the companies as heretofore, but it is understood that Harriman will dictate the policies.

This arrangement will rehabilitate the credit of the Gould companies, which has been so bad recently that three of them have been forced into receiverships. It will enable the Gould roads to raise money for improvements that are needed. It will give Harriman joint use with the Missouri Pacific of the Western Pacific railroad, which Gould has just finished. It will give the Erie railroad a half interest, either by direct ownership or trackage rights over the Wheeling and Lake Erie and the Wabash Pittsburg and will also give it trackage rights into the Lorain Steel Works, from which a heavy tonnage is expected.

Ocean to Ocean Line.
At one stroke this turns both the Gould and the Harriman roads into trans-continental lines. It makes Harriman the first man to bestride the continent from ocean to ocean. He has achieved his ambition of being the first man in the United States to control an ocean to ocean railroad.

It is understood that he has decided to abandon plans for the Harriman Holding company, which were planned nearly two years ago, to take over the investment of the Union Pacific.

One rumor in Wall street goes so far as to say that the Union Pacific may issue enough preferred stock to pay for actual control of Erie and of enough Wabash stock to make the Union Pacific secure forever in its transcontinental trackage rights. Directors of Union Pacific have already authorized \$100,000,000 stocks. There have been rumors recently of rights to be distributed on Union Pacific stock, and up to a few days ago it was supposed in the street that these rights were in connection with the holding company. Kuhn, Loeb & Co. are said to be the bankers through whom the financial arrangement will be made. Blair & Co. of the bankers would admit officially today that anything would be announced this week, but \$8,000,000 of Wheeling and Lake Erie notes, endorsed by Wabash, will fall due on Saturday. It is understood Kuhn, Loeb & Co. will take care of these notes in behalf of Harriman and the Erie.

Gould On Harriman.
"I consider Mr. Harriman a great railroad man," said Mr. Gould on his arrival from Europe today, "and he would be a great acquisition. It would please me greatly to have some one else carry the burden, but so far as I have heard, Mr. Harriman is not to assist me. The management of great corporations is no simple matter. Corporation managers have had the diamonds knocked out of their crowns.

"Controlling anything nowadays is pretty hard work, at least I find it so.

"As to the Western Maryland, I did not care to stand under the whole burden of a tax by politicians generally and the destruction of credit. The receiverships of some of our roads were friendly. We are now doing a normal business, but are not yet out of the woods."

Taft Made Member of Shovelers' Union in Cincinnati--Invites Governor Willson to Game of Golf

Cincinnati, July 29.—Taft is in the fettle today. Taft was made a member of the International Steam Shovelers' union. Officers called at his brother's home and conferred the honor. Taft spoke, praising the shovelers' work on the Panama canal. Taft leaves tonight for Hot Springs, Va. He will remain a month and then return here for the campaign.

Taft and Willson.

The meeting of Gov. Augustus Willson, of Kentucky, and Judge Taft was one of the unusual incidents of a day filled with many happenings.

Gov. Willson was opposed to Judge Taft and lent his influence to Vice President Fairbanks. As a result there sprang up a natural feeling of hostility between them. Yesterday Gov. Willson formed one of the Kentucky delegation to the notification ceremonies. Meeting him in the great hall of his home, Charles P. Taft seized his hand and said:

"Governor, I want you to meet my brother."

Ushered into the presence of the candidate he was introduced. Judge Taft said:

"Governor, I want to thank you for coming so far to see me and I want to ask you to be for me."

With native Kentucky courtesy the governor replied:

"I came so far, Judge Taft, simply to say to you that I am for you heart and soul."

"That being the case let us take a drink," was the hearty rejoinder, and arm in arm, they went to the veranda where they poured a libation of friendship in a mixture of mineral water, ginger ale, ice and enticing mist. This rite performed the nominee said:

"As I understand you play golf I hereby challenge you to a game to be played at Hot Springs."

Bowing his acceptance, Gov. Willson replied:

"It is a match and it will be played the day that you return to the springs."

The newly found friends will make the trip together, and some time Thursday the question of skill will be decided.

Sherman All Right.
Washington, July 29.—James S. Sherman, Republican nominee for vice-president, removed all doubt of his ability to participate in the campaign in a letter to Francis Curtis.

Sherman says he never felt better. He expects to begin campaigning soon.

Lloyd Is Optimistic.
Washington, July 29.—Congressman Lloyd, chairman of the Democratic congressional committee, who has just returned from a tour of the western states, declares the Democrats will control the next house and the majority will come from west of the Alleghenies. People in the west regard Speaker Cannon as a tyrant, he says. Lloyd predicts a landslide, which will carry the Democratic house and elect Bryan.

State Committee.
Louisville, Ky., July 29. (Special.)—The campaign committee announced by the Republican state committee meeting is composed of R. H. Winn, Mt. Sterling; J. L. McCoy, Lexington; J. W. McCulloch, Owensboro, and John Gilliam, Scottsville. Ben Johnson was selected as chairman of the Democratic campaign committee today.

Independence Party Plans.
Chicago, July 29.—The national committee of the new Independence party elected William R. Hearst, chairman, and Charles Walsh, of Iowa, secretary. The committee debated plans for the campaign. It is expected Hagen and Graves, national candidates, will make a tour of a large part of the country. The party leaders today denounced the attempt of J. I. Shepard, of Kansas, to nominate Bryan.

Bryan's Plans.
Lincoln, Neb., July 29.—A close friend of Bryan announced his campaign plans. He expects to make a few prepared speeches at central points before October 1. During October he will remain at home assisting the campaign through interviews, signed articles, letters and speeches to visitors.

COLORED SOLDIERS AT ATHLETIC SPORTS TODAY

Sport was enjoyed by members of the Skidmore Guards, Company A (colored), on the campus at Eighth and Tennessee streets last night. The program consisted of four 70-yard dashes, one half-mile dash, and one 100-yard dash. In the four 70-yard dashes, Private John Pressnell was the winner of three, the fourth one was won by Private John Morton, Jr. The half-mile dash was won by Private Jurie Hatchett, while the 100-yard dash was won by Private Roy Watson. Tonight the members of this company will make a 2 1/2 mile run, starting at the end of Rowlandtown and finishing at Seventh and Adams.

NIGHT RIDERS SHOOT INTO HIS HOME AND WOUND LITTLE GIRL, BUT ARE ROUTED

Charles Bates Picks Up Watch Dropped By One of the Riders.

Morgantown, Ky., July 29. (Special.)—Night riders last night attacked the residence of Charles Bates, a farm hand, who knew of their operations, and whom they tried to kill. They fired into the house and wounded his eight-year-old daughter, who will recover. Bates returned their fire and routed the band. In his haste to get away one of them dropped his watch, which Bates found.

THIRD CIGARET FIEND ATTEMPTS TO KILL HIMSELF

Princeton, Ky., July 29. (Special.)—This morning at 8 o'clock Lofton H. Pool shot himself with suicidal intent. The ball entered just below the heart and passed through the lower part of the stomach and came out near the backbone. The attending physicians state that he will not survive 24 hours. He is a son of W. B. Pool, a well known blacksmith and woodworker. This is the third suicide of young men under 21 years, all of whom were chums of this city, and it looks as if they entered on an agreement of extermination through the suicide route. All were excessive cigarette smokers.

SHOPLIFTER IS CAUGHT IN STORE AND CONFESSES

Ora Wilson, Colored, Visited Weille's, Racket Store and Ogilvie's, Stealing.

Mr. Vincent Salvo Detects Her at Her Work.

HOPE TO BREAK UP PRACTICE

Almost red handed, Ora Wilson, colored, was caught by V. A. Salvo, of L. B. Ogilvie & company, while shoplifting. A search disclosed, where the girl had been to B. Weille & Sons and had stolen several pairs of socks that were concealed in her umbrella. The Racket store was also visited and several cakes of soap lifted without leaving the price. She was held, until Patrolman Henry Seamon arrested her. In police court she pleaded guilty to a charge of petit larceny, and was held over to the grand jury on bond of \$100. This is the fifth shoplifter that Mr. Salvo has detected, and the merchants are confident of breaking up the practice.

WORKS HIS WIRES WHETHER OR NOT HE IS A LINEMAN

Another bad check man has turned up in Paducah, and several merchants will have to make charge to the profit and loss column. How many merchants were fleeced cannot be told yet, as the police have just begun work on the case. It is thought the crook cleared out for parts unknown Monday night, but Chief Collins is making a search for him.

The forger registered at the St. Nicholas hotel as "E. M. Wade," and represented himself as a foreman for the Western Union Telegraph company. Besides beating a board bill of several dollars, he talked the clerk into lending him \$10. At John Lindenfeld's saloon he made his appearance and offered a check on the City National bank for \$10, which was payable to "J. F. Wallace," and was signed by William Kurth, a leather worker. He got an advance of \$3.50 on the check but never called the "next morning" for the rest of the money. At L. B. Ragan's saloon he presented a check for \$5 payable to J. F. Wallace, but was refused payment until Robert Payton indorsed the check. He went to the Postal Telegraph company and applied for work, at the same time telling a pitiful story to Manager J. B. Allen. He secured \$1.50 as an advance. It is thought by the police that there have been other victims that bit on the game.

Mother's Love Overcomes Fear and Pain and Mrs. Julius Butze Saves Her Child From Burning to Death

Infant Showered With Blazing Gasoline. But Mother Wraps Him in Her Skirt and Beats Flames With Bare Hands.

A mother's love for her child led Mrs. Julia Butze, 1511 South Fourth street, to risk her own life this morning for the safety of Reginald Butze, her one-year-old son, when a gasoline stove exploded and threw the burning liquid over her and the kitchen. Instead of running and calling for help when her clothes caught fire, Mrs. Butze had the presence of mind to stand still, and she calmly covered her little son with her skirt, and beat off the flames with her hands. Her arms and face are burned, her eyebrows gone and her hair badly singed, but the burns are not dangerous. The boy's face was scorched.

Mrs. Butze was in the kitchen this morning about 9 o'clock canning fruit. Her son was in the kitchen also when suddenly the gasoline stove sputtered and exploded. The gasoline caught fire and was thrown all around the kitchen.

An alarm was given and the Nos. 2 and 4 fire companies answered. The house is but a square from the No. 2 station and the firemen reached the house quickly and the chemical engine was used in extinguishing the fire. Dr. Carl Sears was called and he dressed the burns of Mrs. Butze and her son.

Falls Out of Bed.

While in her dreams, little Miss Sallie Hovecamp, 6 years old, rolled off her bed and fell on the floor in such a manner as to fracture her left arm. She is the daughter of Mr. and Mrs. Ben Hovecamp, of Tyler. She fell from the bed about 9 o'clock and Dr. Carl M. Sears was called and reduced the fracture. After the injury was dressed the little Miss resumed her slumber.

INTERURBAN HAS TOWNS GUESSING AS TO ITS COURSE

General Manager J. J. Freundlich and the engineers of the Kentucky & Ohio River Interurban Railway company, are still in La Center, considering the rivalry that has arisen between La Center and Bandana for the line to pass through their borders. La Center seems to have the best of the contest at this time, though the original route passed through Bandana. Citizens of each place are profuse in promises to the railroad, if it will go through their respective towns. La Center already has the railroad, but wants the electric line, too. Bandana is particularly anxious to get the line as it now has no rapid transit connections with the outside world.

DUTCH READY FOR WAR

The Hague, July 29.—The Netherlands government announced that the battleships Heemskerk, Piet Hein and Everet and the cruisers Holland, Utrecht and Friesland are ordered to the West Indies, ready for the demonstration against Venezuela. It is regarded as a certain indication that Netherlands will fight Castro unless the latter apologizes.

SCHOOL BONDS TO BE VOTED ON NEXT MONTH PROBABLY

President J. K. Bondurant and the finance committee of the school board will report favorably to the next meeting of the board August 4, on the proposed bond issue of \$50,000 or \$75,000 for school purposes. They will recommend that a special election be held in September to vote on the issue when it can be divorced from all other issues of the fall campaign. At the meeting next Tuesday the school board will make the final arrangements for the bond issue and will determine on a publicity campaign to arouse the interest of the citizens.

NEVER STOPPED WHEN THE POLICEMAN FIRED AT HIM

Patrolman Barber emptied his gun last night at an unknown negro, who refused to obey the cop's command to halt. Patrolman Merry and Barber were on duty at Boyd street when a negro riding a horse at top speed went down the street. The man slowed up, but when he saw the policemen he kicked Patrolman Merry in the breast, and started his horse. Barber fired five times.

PHYSICAL TRAINING AS AN ESSENTIAL PART OF EDUCATION WAS EMPHASIZED IN THE THIRD DAY'S SESSIONS OF THE MCCracken County Teachers' Institute at the county court house, Professor T. J. Coates, the instructor, asserting that schools must be satisfied with nothing less than a sound mind in a sound body. Five minute talks on the subject of physiology were given in the morning session as follows:

"Men's sana in corpore sano," Superintendent Billington and Professor Coates; "The value of good health," Miss Artie Chambers; "How to preserve good health," L. B. Alexander; "What physical defects a school may cure," R. B. Kirkpatrick; "Physical culture in school," Miss Lillie Knott; "School habits to avoid," Miss Maggie Harrison; "Correct habits to form in school," Miss Bessie Billington; "Heating and ventilation," Rudolph Naylor; "Care of the home," Miss Ladye Nicholson.

Promises is one of the leading virtues of school teachers. Professor Coates said, in his opening address this morning at 8:30 o'clock, following with a lecture on the principles of teaching. Inertia, he thought was commonly the cause of failures among teachers to get the best results and he advised them along many other practical lines.

Professor M. F. Staten, of Bowling Green, was a visitor in the institute today and addressed the teachers instructively. Miss Dora King, of Ragland, registered this morning as the forty-fifth member of the institute. Night sessions scheduled on the program have been abandoned as the day sessions are long and the instructor and Superintendent Billington believe they would be too exacting. Miss Dora Draffen was the efficient secretary of the institute today.

This Afternoon.
This program to be given this afternoon will give an idea of the drift of thought in the institute: Professor Coates will lecture on "How to teach the fourth reader"; at 1:30 o'clock English composition will be taken up and discussed in detail as follows: "Kinds of composition," Emerson Jett; "Essentials of description," Miss Pearl Miller; "Essentials of narration," Miss Grace Billington; "Exposition and argument," Edward Finley; "Criticism of form and content," L. W. Fezzer; Arithmetic—Professor Coates.

Primary history—The institute, "Outing of ten primary facts," Mrs. T. L. Houck; "The sense phase of history," George Orr; "Educational values of history," Terrence Williams; "The use of biography," Charles Ferguson; Primary outline of the Revolution," Miss Thelma [Wurth]; "Washington's administration," Miss Ada Long; "Outline of five facts related in time and associated in place," Professor Coates. Superintendent S. J. Billington sent out the ballot boxes today to the forty-three precincts for the trustee election next Saturday afternoon. The institute will close Friday.

At the Woman's Club.
The County Teachers' Institute will hold their Thursday afternoon session at the Woman's club building on Kentucky avenue instead of the court house, on invitation of the Educational Department of the Woman's club. The public is invited to attend the meeting.

Boy Drowns in River.
Newport, Ky., July 29.—Raymond Askenbrenner, aged 17 years, of Indianapolis, was drowned today while attempting to swim the Licking river. He and a companion, Glen Richards, both members of the Indianapolis Y. M. C. A., arrived here Sunday on their way to Louisville, where they intended to spend their vacation with relatives.

HUGH MILLER APPOINTED DAY WATCHMAN FOR GOOD.
The permanent appointment of Hugh Miller to the position of day watchman of the Illinois Central shops and yards has been announced. Mr. W. M. Smith will continue to have charge at night. Mr. Miller was appointed to succeed the late Dick Tolbert. Both men have made efficient guards and keep the coal thieves on the hustle. Mr. Miller was serving temporarily as day watchman, but the position is his for good now.

NO NEW DREW EVIDENCE.

Death of Young New York Girl Re-
mains a Mystery.

Lenox, Mass., July 29.—The de-
bates today District Attorney O'Brien
closely questioned William Taylor and
Frank Smith in an effort to disclose
new evidence that might lead to a so-
lution of the mysterious death of
Hazel Drew, whose body was found in
Teal's pond July 11. The men were

brought to this city from their homes
near Averill Park. After their exam-
ination they were permitted to return.
District Attorney O'Brien said nothing
new was revealed. The coroner's
inquest will be held tomorrow after-
noon.

GATLING GUN WAS MURRAY PITCHER

Shot 'Em Over Too Hot for
Waverly Batters.

Topsided Score of 18 to 2 in Contest
on Murray Diamond Yes-
terday.

SENSATIONAL RUNNING CATCH.

Murray, Ky., July 29. (Special.)—
Murray won by a big score yesterday
from the Waverly, Tenn., team as
when the smoke of battle had blown
over the score was 18 to 2. Gatlin,
for Murray, was the bright star, and
his twirling allowed only five safe
bats, while Murray players secured
15 hits. Wyatt, a much touted young
ster, pitched for Waverly, and his
curves were good but Murray had on
her batting clothes. Duguid lead
with the ash, securing four hits out
of five times up. Dick Bruhke, the
star second base player, of Paducah,
got two hits, one a three bagger and
the other a two sacker. Cook also
slammed out a three-base hit, and
drove out two singles. The feature
in the field work was a spectacular
running catch of Beaman, which robbed
Wyatt of a home run, and the
catch was roundly applauded. Hay
caught a good game for Murray and
handed the twisters in faultless
style. Both teams will play the third
game this afternoon.

Fulton Wins.
Fulton, Ky., July 29. (Special.)—
Fulton won from the Charleston,
Mo., team yesterday by a score of
18 to 6, and the batters slammed the
pitchers until the game was so one-
sided that it was uninteresting.
Charleston opened hostilities in the
first round by getting six runs, but
after that they stopped, and Fulton
got busy and brought in 18 men.
Charleston got 3 hits, while the Ful-
ton fattened batting averages with
19 safe drives. The feature of the
game was the star work in the box
of Downs for Fulton. The batteries
were: Downs and Maybe for Fulton,
and Cummings and Walker for
Charleston.

SUMMER ILLS

The exhausting heat of the Sum-
mer weather causes untold suffer-
ing and misery to thousands of men,
women and children. Deaths occur
on all sides from diarrhea, dysen-
tery, chills, cholera morbus, typhoid
and other fevers, due in a great
number of cases to impure water
and the consumption of unripe
fruits by those whose systems and
stomachs are not in a healthy con-
dition.

The many ills that come during
the hot, sultry weather can be
avoided by keeping the body strong
and healthy with Duffy's Pure Malt
Whiskey, the great body-builder.

If all were more careful to keep
the system in a vigorous, healthy
condition the germs of these dis-
eases could not obtain a foothold.
Leading doctors agree that Duffy's
Pure Malt Whiskey has no equal as
a destroyer of poisonous germs in
the body. It is indorsed by Clergy-
men of every faith, nurses and doc-
tors of all schools, as a positive cure
for dyspepsia, indigestion, nervous
prostration, all diseases of the
throat and lungs, every form of
stomach trouble; malaria, chills,
fever and all run-down weakened,
depressed conditions of the body,
brain and muscle. It is a heart
tonic, blood purifier and promoter
of health and long life; makes the
old hale and hearty; the young vig-
orous and strong.

Duffy's Pure Malt Whiskey is
an absolutely pure distillation of
malted grain; great care being used
to have every kernel thoroughly
malted, thus destroying the germ
and producing a predigested liquid
food in the form of a malt essence,
which is the most effective tonic
stimulant and invigorator known to
science; softened by warmth and
moisture its palatability and free-
dom from injurious substances ren-
der it so that it can be retained
by the most sensitive stomach.

If weak and run down, take a tea-
spoonful four times a day in half
a glass of milk or water.
Duffy's Pure Malt Whiskey is
sold throughout the world by
druggists, grocers and dealers, or
shipped direct for \$1.00 per bottle.

SECOND VICTORY

FOR "DR. FIZZ," A. M. LEAVISON
& CO.'S POPULAR DRINK.

Case Against T. H. Reed for Selling
It On Sunday Dismissed in the
Police Court.

A. M. Leavison & company won
another signal victory in the police
court this morning for their popular
soft drink, "Dr. Fizz," when in the
case of T. H. Reed, of Ninth and
Boyd streets, who was arrested for
selling the beverage on Sunday, the
jury brought in a verdict of acquittal.
The evidence proved there is no alcoh-
ol in the drink, and therefore it is
no violation to sell it on Sunday, nor
is city license necessary for its sale.

In the case against Thomas Cole a
few days ago the same verdict was
rendered and the drink declared a
non-intoxicant, as in this case. "Dr.
Fizz" is one of the best sellers Leav-
ison & company have, and the makers
contend, as the evidence in these two
cases clearly indicated, and there is
no alcohol in the drink, and that it is
purely a soft drink.

Eldorado Springs Couple Take Advice
of Pursuing Parents.

Eldorado Springs, Mo., July 29.—
The mystery of the disappearance of
Jeff Roundtree and Miss Sina Horne
from this city has been solved. They
left here about two weeks ago after
church service, and for nearly a week

their whereabouts were unknown.

The girl's father, A. W. Horne, and
J. R. Ford finally secured a clew and
followed them across country in a
two-seater rig. They overtook them
in Hickory county, and after a short
conference the party drove to Hermit-
age, where a wedding followed. The
young couple had traveled nearly 100
miles on foot and had foraged on the
country as best they could.

The boy is 21 years of age and the
girl is 15. The party returned to this
city, the elopers with the parents' for-
giveness and the bride and groom
have taken up their duties in earnest.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of **Mother's Friend** before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Sold by druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

DID NOT DETER FLIGHT OF BURGLAR LAST NIGHT.

Maud Sanderson Calls Police Who Arrive in Time to Shoot at Figure.

Someone tried to break into the room of Maud Sanderson, 529 Campbell street, last night but when the alarm was given the fellow escaped by running through a storage yard. The police station sent Patrolmen Merry and Barber and Patrolman Holt, of the Illinois Central force, to the house. The cops spied a man running through a lot containing a pile of jugs. Patrolman Merry cracked down with his pistol, and fired five shots at the shadowy figure, but the man never stopped his flight.

ENTIRE COMPANY

MAY BE SENT INTO NIGHT RIDER DISTRICT.

Twenty-Seven Men Are in Readiness to Leave for Western Kentucky.

Owensboro, Ky., July 29.—It is probable that the entire militia company composing Company C, will be called out on special duty in the night rider district. Captain Gans, of Company C, is now at Princeton with 20 members of the company. The company is 47 men strong, and it is understood that the other 27 men will be sent into Western Kentucky. No official information has as yet been given out, but the members of the guard here are ready for moving orders.

Husband and Suicide at 15.
Sergeant, Ky., July 29.—Leonard Hall, 15-year-old son of Elder Joseph Hall, a Baptist minister of Hilliard, near here committed suicide today by shooting himself with a 10-gauge shotgun, in his father's home. Young Hall was married two months ago to little Miss Rhoda Profit, barely 12 years old, a school girl, with whom he had not lived happily.

Misses Brazelton Coming.
According to information received by friends, Misses Mary and Adah Brazelton will return home tomorrow from Rochester, Minn., where Miss Mary Brazelton had an operation performed. BIG DRY DOCKS

WILL BE COMPLETED IN JANUARY AT VALLEJO, CAL.

Abandoned Farms Will Be Given Over to Trees Is Scheme of Forestry Bureau.

(United Press.)
Washington, July 29.—The \$1,450,000 dry dock for the Mare Island navy yard, now in course of construction at Vallejo, Cal., will be completed in January.

Francis B. Smith, constructing engineer for the contractors, was in Washington this week conferring with officials of the navy department. The new dock will be of concrete throughout, and Smith talks interestingly of the difficulties which the contractors have encountered. "In the foundation of the dock," he said, "we used 12,266 piles of Oregon fir, driven 40 feet under water into from 20 to 40 feet of earth. Upon that foundation we built a concrete dock, but only after repeated failures.

"The construction of a dock of this size and character is a prodigious undertaking. The contractors which I represent are the second ones to take hold of the matter, and already the dock has been in process of construction for nine years."

Smith brings with him to Washington the coast antipathy to the Japs, and is enthusiastically for the further fortification of the Pacific gateway to America. Still, he naively remarks: "I think one good American can lick three Japanese, if it came to a fight."

Plant Trees.
The United States forest service has a plan for the utilization of the worn-out farms of the country—a scheme to make them a paying proposition. The idea is simply to plant trees.

An Ohio farmer suggested the scheme. He owns a homestead where farming has been a losing proposition. He has therefore decided to plant the entire tract with trees. Norway spruce has been selected as the tree, and as soon as they are large enough they will be sold for Christmas trees—and, by the way, Christmas trees bring first-class prices.

One of the fundamental principles of forest economics, say the experts, is that soil which is not good enough to make the growing profitable, should be devoted to the production of wood crops, of cereal crops. This does not mean that trees grow better on poor soil than on fertile soil. But, in proportion to the money invested, better returns are secured from trees planted on the less valuable land.

The Ohio farmer mentioned above expects to plant chestnut in the blank spaces left after removal of the first crop of Christmas trees. About the time when the last spruce is cut, it is predicted that the chestnut will be ready for the axe. In addition, catalpa, black locust, elm, boxelder and sycamore will be planted. All of the trees mentioned are excellent for the purpose; growing well on less fertile land, and furnishing a comparatively quick return on the money invested.

FRIENDLESS

HOME BENEFIT BASEBALL GAME FRIDAY AFTERNOON.

Elks and Knights of Columbus Will Play For Sweet Charity at League Park.

No doubt the philanthropic public will patronize the baseball game between the Elks and Knights of Columbus liberally Friday afternoon. The entire proceeds of the game will go to the Home of the Friendless, a deserving institution of the benefit. Tickets have been placed on sale over the city, and the boy or girl selling the most tickets will be presented with a \$5 gold piece.

Play will be called at 4 o'clock, and as both teams are composed of crack amateur players a large crowd should be out to see the fun. Considerable rivalry has arisen between the two teams, and all the friends of the ball tossers should be ready with yells.

Strengthened at several points, the Knights of Columbus' baseball team will make the celebrated Elks team fight hard for a victory in the game Friday afternoon, July 31, for the benefit of the Home of the Friendless. The line-ups for the game will be:

Elks—Head, 1b; Barringer, 2b; Robertson, ss; Wolff, cf; Ewell, lf; Atkins, 3b; Martin, rf; Goodman, c; Cutton, p.
K. C.—Flanagan, 1b; O. Hofflich, 2b; Donovan, ss; McGarrigal, cf; Kerr, lf; Hugg, 3b; McKenzie, rf; Brown, c; Theobald and T. Hofflich, p.

A Stylish Skirt Made to Your Order for \$1.50

The idea is a particularly interesting and practical one, while the method of obtaining the skirt is very simple. You go into the Dress Goods Department and select the material you fancy most.

There are twelve different styles to choose from, six of which are here represented, and choice of our entire line of dress goods and silks, \$1.00 a yard or above.

Wednesday, Thursday and Friday

we will sell the material and take orders and measurements for skirts—skirts then to be made in next two weeks. Of course, first come, first served, and offer is good for orders and materials sold on these three days only. At this price every woman can afford one of these strictly man-tailored garments, and we anticipate a big run. Don't all come at once, but come early enough to insure getting skirt when wanted.

Extra Special Skirt Offer

During this skirt sale we have selected some dozen pieces of French imported novelty suitings, in grays, browns, etc., retailing from \$1.75 to \$2.50 a yard. From these materials we make

DESTROYED WHEN NIGHT RIDERS BURNED STATION.

Mrs. Edward Mahan, of Mayfield, Victim of Incendiarists—Going to Reunion.

Mayfield, Ky., July 29.—Mrs. Edna Mahan, of this city, who left here last week for Trigg county, was a loser in the night riders' raid, when they burned the depot last week. She had arrived at Gracey, and wishing to remain over night at that point left her baggage in the depot. In the dead hours of night the raiders came and burned the depot to the ground, and Mrs. Mahan's baggage went with

it. She had all of her best clothing, including her silk dresses and many other costly pieces of clothing. The Cunningham family reunion was to be held in a day or two and the loss of her clothing necessitated that she wear her traveling dress to the great gathering of relatives. The loss will amount to perhaps sixty dollars.

ANNOUNCEMENT.

County Court Clerk.
The Sun is authorized to announce
Hiram Smedley a candidate for re-
election to the office of Clerk of the
McCracken County Court subject to
the action of the Democratic party.
For City Jailor.
The Sun is authorized to announce
W. T. (Billie) Read a candidate for
City Jailor, subject to the action of
the Democratic primary August 6.

Daily Thought.
"He who does not look forward
with reverence will look back with
regret."

We understand President Roose-
velt is in favor of being at peace
with all nations by peaceable means,
if possible; but at all events to have
peace.

William Hearst thinks the Republi-
can party is iniquitous, but the
Democratic party is worse, because
it lacks fibre. Tom Watson can of-
fer a suggestion.

The fact that the Sultan of Turkey
who has been a prisoner of fear in
his home with his family since 1877,
announces among other reforms the
abolishment of polygamy. Indicates
the sage deduction of one who has
had every opportunity to learn dur-
ing the last 30 years all the advan-
tages and disadvantages of a multi-
plicity of wives.

SHALL WE CHANGE DOCTORS?

When William H. Taft said in his
speech accepting the Republican
presidential nomination:
"The chief function of the next ad-
ministration, in my judgment, is to
distinct from, and a progressive de-
velopment of that which has been
performed by President Roosevelt.
The chief function of the next ad-
ministration is to complete and per-
fect the machinery by which these
standards may be maintained, by
which the lawbreakers may be
promptly restrained and punished,
but which shall operate with suf-
ficient accuracy and dispatch to in-
terfere with legitimate business as
little as possible," he stated the issue
on which he makes his bid for the pre-
sidency. It is a fact worthy of more
than passing note that the policies
of President Roosevelt are unchal-
lenged by any party and that the
only difference in the platforms is
the manner in which those policies
shall be continued. Mr. Bryan has
further remedies to try. Mr. Taft,
who has been part of the Roosevelt
administration, the choice of the
president himself, to execute those
policies, thinks the chief function of
the next administration is to make
those policies effective and perman-
ent.

Roosevelt by studying conditions
for eight years has ascertained the
extent to which reforms may be
safely and effectually made. By
using every power of the executive
department he has demonstrated the
limitations of the federal authority
and suggested further legislation.
The work of eradicating evils, the
roots of which reach almost to the
vitals of our commercial system, was
necessarily severe, and some business
depression was to be expected; but

now that the country is mending, the
question arises; shall we submit to
an experiment by a new and untried
doctor of another school just as we
are recovering from the shock of the
first operation, or shall we rather
take Taft's tonic of conservatism,
in the meantime, following the direc-
tions of Surgeon Roosevelt for heal-
ing the sore and keeping the wound
free from infection?

DISCONTENT.

We hasten to acknowledge re-
ceipt of a protest against an edi-
torial we produced last Saturday,
touching upon the Socialistic ten-
dency of certain people, and preaching
the doctrine of contentment. The
reply we got makes us regret the
vigor of our language; because we
see we have touched somebody where
his faith lies and wounded his sensi-
bilities deeply. We can only explain
that the editorial in question was
written under the impulse of an in-
dignation as keen as that which
prompted the reply to it, and our
aim was not at the real Socialist
whose motives are as pure, as we
think his premises are falsely as-
sumed; but at the grumbler, who is
living well, but is discontented be-
cause another has more of this
world's goods than he, and who is
ready to espouse any radical issue
opposing the existing order of things.
It was a vicious assault on vested
property in the Commercial-Appeal
that stirred us; but we had no
thought of arousing a Socialist, who
prides himself on the name. We
seek no argument from that one,
who, as he asserts, considers his
economic theory in the light of reli-
gion, although, we still maintain
that in the communication, which
we shall quote at length, our cor-
respondent commits the very error
for which we criticize Socialism—he
exalts property and believes that
happiness will come with the equi-
table distribution of wealth. That is
diametrically opposed to the teach-
ings of Christianity.

Christianity is something people
try to live and seldom argue accord-
ing to the reasoning of the world.
Socialism is something that lends it-
self readily to argument; but which
few try to live. It is easy to point
out the misery and distress and in-
justice in the world—to point out evils
of which we are all aware; but that
does not prove that Socialism is the
remedy for it.

We admit that the poor we have
with us always, and there is injustice
in the world. There also is improvi-
dence. Our sympathies are with the
man who toils; for we toil. But here
again Socialism errs—it draws a
sharp class distinction, and our critic
draws it, while he protests he does
not. We even suspect that the true
Socialist would enjoy quite as much
seeing the capitalist starve as pocket-
ing his own five-fifths of the profit.
Yet he cannot separate in his
definition of capitalist the trust
magnate, the retail grocer and the
artisan, who owns his own home, so
far as each profits by the "unearned
increment"; returns from money in-
vested and shrewdness not associated
with manual toil.

Riches do not bring happiness.
Contentment is a state of the mind;
not of the pocket book; and the
fellow who seeks contentment in the
knowledge that no other fellow has
more than he, is getting well on to-
ward the level of the man who is
not satisfied for anybody else to have
as much as he.

If we were down and out and
wanted for work, we fear we should
embrace Socialism, just as we fear
the possession of great riches might
make us brutal; but we would not
like its Christianity. If it were in
our power to say the word, as the
writer suggests, and furnish jobs to
all the unemployed, we should do so;
but we could not thus make them
contented.

But, to the letter—which, by the
way ends with a gratuitous fling at
Mrs. Mary Baker G. Eddy, and in a
spirit of genuine malice we give the
author's name and address in the
hope that some Christian Scientist
will inquire of him whether he has
studied the subject deeply, and if
not, why he condemns it without
investigation.

He says:
"Dear Sir:—Pardon my unceremo-
nious intrusion. You have written
a very remarkable editorial in the
'Sun' of the 25th inst., on the great
and only issue of the day, Socialism.
Remarkable in many ways—re-
markable for its misrepresentation,
(ignorantly, I hope,) remarkable for
its bigotry, remarkable for its gross
and inexcusable ignorance of a world
wide movement for the betterment
and uplifting of all humanity, and
the irresistible dynamic power driv-
ing this mighty host on its sublime
mission of emancipations for all
those who labor and are heavy laden.
The wage-slaves of the earth, is the
class conscious intelligence of 14
million working men and women
who clasp hands around the world
and call each other, "Comrade."
Now I do not propose to take the
trouble to answer all your objec-
tions to what you call Socialism. The
truth is, you have not said one word
against Socialism, for you know ab-
solutely nothing about that great
science."

"Can even the most learned men
talk intelligently on a theme they
have never studied? Would you
contradict Edison on the subject of
electricity by reading a works on that
science? Would you dispute with
Darwin on evolution without inves-
tigating that science? Then, why
should you presume to condemn So-
cialism, the science of co-operative
society, unless you first investigate,
and go carefully through some of the
many great works on that science.
"Knowledge is absolutely essential
before you can either talk for or
against it. So I refer you to 'Brit-
tanica,' Webster, or any works of

the Socialists for a fair definition of
Socialism, and if you are really fair
in your attack, and know you are in
the right on this vital issue, then
open your columns to the Socialists,
and their opponents alike and let us
'reason together.'

"Surely the truth will not shun
discussion.

"Another word only: You say
Christianity and Socialism are as
'wide apart as the poles.' Let's see,
some other great men differ" with
you; the Britannica says: 'the ethics
of Socialism and the ethics of Chris-
tianity are identical,' and R. T. Ely,
Prof. of political economy, (not a
Socialist) says: 'Socialism is merely
Christianity applied to every day life.'
Neither does it say 'class against
class,' it merely points out the fact,
and would abolish all classes by com-
pelling all the drones who live with-
out working, (off the labor of the
poor who work without living,) to
become members of the working
class; and give back to society an
equivalent for what they consume,
all those who produce wealth getting
the full product of their toil. 'Divide
up.' That is the trouble now under
capitalist, at the rate of 1-5 to the
producer and 4-5 to the capitalist.
We say this division is robbery of
the worker, and we propose to give
to the producer the entire 5-5. So-
cialism would stop the 'dividing up.'
Let us consider the good things we
enjoy, you say. Very well, but
what of the four million hungry men
and women of the un-employed who
are this hour dragging their tarnish-
ed, weary bodies through the streets
of a thousand cities in this prosper-
ous (?) land, begging for work?
Not charity, but justice? What
about the 'good things' these enjoy?
Should they rejoice at their neigh-
bors' prosperity? built upon their
own wretchedness and poverty. Such
a proposition is an insult added to
robbery—and say, did you ever try
being real 'content' on an empty

"I judge not from the stupid stuff
you give us on contentment. All us
fellows must do now is to 'change our
minds,' and we'll have a job, plenty
of money and be happy. Most simple
Why haven't you told us before, Mr.
Editor I think you must be a disciple
of Mrs. Baker G. Eddy. We have no
real sorrows, pains or stomach ache,
its 'all in the mind.' Let me beg of
you to get hold of a Socialist primer
and at least learn the A B C's of
Socialism, before you again display

FLORENCE LYNN

DIES OF TYPHOID FEVER AT
KNOXVILLE, TENN.

Former Paducah Girl Succumbs to
Dread Disease While Visiting
Her Sister.

Word was received by Mr. and
Mrs. Enoch E. Lynn, of 326
North Sixth street, of the death of
their daughter Miss Florence Lynn
who was visiting in Knoxville,
Tenn., with her sister Mrs. Charles
Simms.

Miss Lynn was born and reared in
Paducah, and was 23 years old and
had been ill with typhoid fever for
two weeks. She had been living at
Shrieverport, La., since last spring,
connected with a large millinery firm
of that city. Miss Lynn had also
worked with millinery firms at Mem-
phis and Jackson, Miss.

Miss Lynn went to Knoxville a few
weeks ago to visit her sister and af-
terwards was coming to Paducah to
visit her parents, but became sick
suddenly while at Knoxville and was
unable to come on to Paducah. Her
parents were notified of her illness.
Miss Lynn died yesterday morning.

Miss Lynn has a number of friends
in Paducah and is survived by her
father and mother, four sisters: Mrs.
Charles Simms of Knoxville, Tenn.;
Miss Nell Lynn of Shrieverport,
Miss, and Misses Frances and An-
gelina Lynn, of Paducah, and one
brother, Master Lang Lynn.

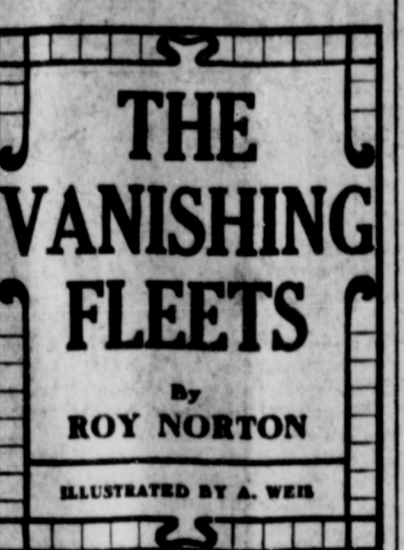

WATERMELONS

FIRST OF MCCracken COUNTY
RUIT REACHES PADUCAH.

O. L. Coryell, of Metropolis Ferry,
Brings Exhibits to
Market.

Jog is in store for the small boy,
and many a lad will be anxious to
make an excursion into the country
at night. All this exhilaration comes
as the result that the watermelons
around Paducah are beginning to
ripen, and once more the season of
fun is here. The first home grown
watermelons were brought in by O. L.
Coryell, of near Metropolis Ferry,
and although most of the melons were
small, they had the right thump, col-
or and taste. Several small boys
stood around the wagon and softly in-
quired how far out that patch was.

—Dr. Clarence Millam returned this
morning from St. Louis, where he
purchased an equipment for his den-
tal office, that he will open.

(Continued from last issue.)

Well in front were the vanquished
squadrons of Japan, their funnels re-
paired for the last cruise they would
ever make, but stripped of fighting
masts. Back of them came the
mighty ships of England, with prows
turned outward for their final voy-
age. German cruisers, graceful and
well manned, followed; while in their
wakes could be seen others flying the
banners of Italy, of France, of Rus-
sia, and nearly every maritime nation
of the globe. Flanking this assem-
blage were the vessels of the Ameri-
can navy, which but a short time
before had been regarded as the coun-
try's bulwarks, and were now partici-
pating in the last review.

The science of ages, the experience
of all who had gone down to the sea,

Thousands Had Been Contented with
a Star.

the refinement of skill and study, and
the genius of evolution were embodied
in those metal sides. They repre-
sented the wealth of nations collected
through sweat and blood, all poured
out unthinkingly for this—consignment
to the scrap heaps of a world that had
abandoned war. The glories of past
deeds of valor would no longer be
emulated upon the waves. The sea
had been untenanted before man's
ingenuity found a means of breasting
it. His coming had left it unscarred
and unimproved. It alone was uncon-
querable, changeless and heedless.
Through centuries it had scorned
him, and now it was bidding his craft
farewell and carrying his fleets for the
last time. No more would its
wastes echo to his passing salute or
witness his trivial strainings for a
flag. Only the song of the fisherman
might henceforth echo along the
shores whereon it beat. It had out-
lasted those sturdy hulls of oak and
steel that once had dared its force.

High above swept the invaders of
that new territory to which man had
at last laid claim and was to hold in
domination for his use. Blue as the
skies above them, the radiophanes
hovered over and bade farewell to the
vanishing fleets. In the vanguard
flew the Norma, her colors fluttering
in the breeze of flight as they had
done on that day when she swooped
down through screaming shells to
wrest power from the enemy. Float-
ing after her moved the huge Roberts,
its metal sides throwing back the
rays of the western sun. Close be-
hind in stately pursuit was Seven-
teen, whose plates had felt the biting
force of the dead Yakumo's guns.
And so they came, bidding farewell
to the ships of an abandoned sea.
Small wonder that the soul of the girl
who watched felt one instant's regret
that she was never again to know the
exhilaration of the fray! A half smile
of tenderness parted her lips as she
thought that there in the air above
her were her friends and companions
in arms—grim old fighting Bevin's
with his prayerful oaths, good-natured
Brooklyn whose kindness she knew,
and studious little Jenkins whose im-
perturbability equalled his steadfast
bravery.

Guy, understanding and respecting
the storm of feeling which must be
hers at sight of this pageantry of
which she had been such a vital part,

watched her in silence. Almost at
their feet squatted Fort Hancock,
whose guns were to bellow for the
last time. It too, like its fellow forts,
was of the dying. Like them its bat-
tions would be abandoned and the
men within driven to ways of peace.
Fortress and ship, garrison and crew,
would be no more. Crumbling, un-
tenanted walls left as records of a
nation's defense, and rotting uniforms
relegated to garrets, would be all that
were left—armies reorganized and re-
dressed for police force only, and sail-
ors become fishermen or passing their
lives in other occupations and remem-
bering of the sea; swords rusting in
scabbards and guns corroding in
embrasures, nothing more.

The last salute had boomed out.
Lower and lower flew the radiophanes,
till they were close above the outgoing
ships. The ports of the peacekeepers

What Ails You?
Do you feel weak, tired, despondent,
have frequent headaches, coated tongue,
bitter or bad taste in morning, "heart-
burn," belching of gas, acid risings in
throat after eating, stomach gnaw or
burn, foul breath, dizzy spells, poor or
variable appetite, nausea at times and
kindred symptoms?

If you have any considerable number of
the above symptoms you are suffering
from indigestion. Dr. Pierce's Golden
Medical Discovery is made up of the most
valuable medicinal principles known to
modern science for the permanent cure of
such abnormal conditions. It is a most
efficient liver invigorator, stomach tonic,
bowel regulator and nerve strengthener.
The "Golden Medical Discovery" is not a
patent medicine or secret nostrum, a
full list of its ingredients being printed
on its bottle-wrapper and attested under
oath. A glance at its formula will show
that it contains no alcohol, or harmful
habit-forming drugs. It is a fluid extract
made with pure, triple-refined glycerine,
of proper strength, from the roots of the
following native American forest plants,
viz. Golden Seal root, Stone root, Black
Cherrybark, Queen's root, Bloodroot, and
Mandrake root.

The following leading medical authorities,
among a host of others, extol the foregoing
roots for the cure of just such ailments as the
above symptoms indicate: Prof. R. Bartholow,
M. D., of Jefferson Med. College, Phila.; Prof.
J. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin
M. Hale, M. D., of Hahnemann Med. College,
Chicago; Prof. John King, M. D., Author of
American Dispensatory; Prof. J. M. Scudder,
M. D., Author of Specific Medicines; Prof.
Laurence Johnson, M. D., Med. Dept. Univ. of
N. Y.; Prof. Wiley Ellingwood, M. D., Author
of Materia Medica and Prof. in Bennett Medi-
cal College, Chicago. Send name and ad-
dress on Postal Card to Dr. R. V. Pierce, Buf-
falo, N. Y., and receive free booklet giving
extracts from writings of all the above medi-
cal authorities and many others endorsing in the
strongest possible terms each and every in-
gredient of which "Golden Medical Discovery"
is composed.

opened, and from them fell garlands
of flowers, which fluttered down
through the air indiscriminately upon
the doomed craft and the waves them-
selves—a tribute of peace from the
living and wreaths for the dying
gladiators of war.
Hand in hand Norma and Guy stood
upon the headland beneath the gray
beacon lights that would welcome
strange travelers from foreign ports
no more. Into the darkening skies of
the east the fleets of the nations were
speeding to dissolution and death.
The long, steady swell of the free and
unburdened sea came monotonously
hammering at their feet. In silence
they watched the relics of cruel war
sail out, saw their hulls disappear,
saw the trails of smoke diverge as
each squadron sought its own course,
and then looked into each other's
eyes, reading therein nothing but a
promise of love and serenity. Their
troubles had vanished as had those
fleets of the sea, and life with all its
possibilities of accomplishment and
contentment was before them. They
turned from the great silent ocean
and walked into the golden radiance of
the sunset toward their home.

IN LAND SUITS

Marshals Working Overtime in Oklahoma Locating Defendants.

Guthrie, Ok., July 29.—The work of serving papers on defendants named in the 11,000 lawsuits recently filed in the United States circuit court at Muskogee to quiet titles to Indian lands is proving a monster undertaking. Even here in old Oklahoma Territory, deputy United States marshals have been working since last midnight, and hundreds of defendants are being served.

STERILIZER

COMPANY IS ORGANIZED WITH GOOD PROSPECT.

Will Be Manufactured in Paducah—Description of Dentists' Apparatus.

Success seems assured for the new Lucas Sterilizer Manufacturing company which has filed articles of incorporation in the county clerk's office and will begin business September 1. This company will manufacture and market a patent combined sterilizer and water heater for dentists, invented by Dr. E. G. Stamper, and already sold by him in many states.

Incorporating the new industry are Dr. E. G. Stamper, Attorney Frank A. Lucas and J. R. Weston. The capital stock of \$2,000 in shares of \$10 each is divided among E. G. Stamper, 70 shares; F. A. Lucas, 50 shares; F. M. McGlathery, 10 shares; Dr. J. T. Gilbert, 5 shares; J. R. Weston, 5 shares. Officers were elected in a meeting of the directors as follows: Dr. E. G. Stamper, president; Dr. J. T. Gilbert, vice president; F. A. Lucas, secretary; F. M. McGlathery, treasurer.

Patents have been secured for the sterilizer, which is made of enameled ware and operated by gas. It rests on a sliding arm and water in one receptacle is kept at the boiling point, in which the dentist can sterilize his instruments as they are used, and in another receptacle water is kept at a temperature which the patient can use in rinsing the mouth without pain to the tender parts. So far only mail advertising literature has been used, but more orders than could be filled have been received from California to Pennsylvania.

Negotiations are on now for a building on North Sixth street to use as the manufacturing plant. Some parts of the device will be manufactured in Chicago, but it will be assembled here and marketed through the local office. A large printing contract has been awarded and energetic measures to push the sterilizer will be under way in a few weeks.

WIT THAT HANGS FIRE.

To Prevent Which England Talks of Having Schools for Conversion.

Lowell was admittedly a man of quick wit, yet he remarked to a friend in a London drawing-room: "I've often regretted that the best things I've ever said were addressed to the back of my coachman on the drive home." The brightest of us are in the same box with Mr. Lowell. Our most brilliant speeches, our most effective witticisms come into our minds only after the event which should have called them forth. Few possess the quickness of thought and action characteristic of the eastern-monger's wife who exclaimed: "She said I wasn't a lady, she did, and the next minute I 'ad 'er 'ead in the gutter." Most of us require time; we are clever enough, brilliant enough, only it is always too late for us to convince others of these traits. You must put your epigram on the wing or your shot is no better than a blank cartridge. Since these things are sadly so, we can understand why it has been proposed in England to establish a course of conversation in our school and colleges. Instead of wasting hours on mental arithmetic, time should be devoted to the cultivation of lightning flash answers. Those gems of wit and jewels of insight with which our minds are, scintillating, as we discover at our leisure, should be so placed as immediately to reflect the slightest gleam from any other mind. The advantage to our dinner parties would be incalculable. Monkeys and music would cease to be necessary.—New York Evening Post.

HURT BY BLEACHERS' FALL.

Accident at Ben Greet Production in Madison, Wis.

Madison, Wis., July 29.—A section of bleachers collapsed at an outdoor performance of Ben Greet's players at the university tonight, precipitating 300 people 10 feet to the ground and seriously injuring several of them. The injured were all women and were taken to their homes after being treated by physicians in the audience.

Trust Busters Agreed.

Lenox, Mass., July 29.—The conference of government "trust busters" ended this afternoon. Attorney-General Bonaparte, and District Attorney Sims, of Chicago, arranged all the details for future action at the first meeting. The other conferees approved the plans. Secrecy regarding the program is maintained for the present.

MYSTERY IN FATAL SHOOTING.

Man Mortally Wounded While He Is Walking With Cleveland Girl.

Cleveland, July 29.—With a bullet wound just over his heart, a young man who registered as Louis Weber is said to be dying at Charity hospital. Back of the shooting is a mystery which the police of Cleveland and Cleveland Heights, a fashionable suburb, where it occurred, have not been able to solve. Weber was walking on the heights early this morning with Miss Agnes Atkinson, the police say. Both say Weber was shot by two men while the couple were sitting on the grass. The girl said two men dashed through the bushes at the rear of them. The men disappeared as quickly as they came.

ROWLAND STEPHON DREW TEN AND TWENTY-FIVE.

Charged with carrying a pistol concealed, Rowland Stephon, the eighteen-year-old son of Mrs. Maggie Stephon, who was held over to the grand jury on a charge of bribery, was arrested last night about 12 o'clock by Patrolmen Reusch and Kirk. When searched at the police station Stephon had besides his gun, four plums of whisky, several boxes of sardines, boxes of potted ham and some cigars. Stephon declared he was waiting for a freight train, as he was ready for a trip, and the cops thought so too, but for "totin" the gun he was carried to the police station. This morning in police court he was fined \$25 and costs and sentenced to ten days in jail, but an appeal was prayed and granted.

A. S. REESOR GIVES UP LIFE FOR YOUNG WOMAN.

Young Man of Ingleside, Ky., Killed By Train at Valparaiso, Indiana.

Valparaiso, Ind., July 29.—A. S. Reesor, aged 22, of Ingleside, Ky., a Valparaiso University law student, gave up his life last night for Miss May Bradbury, also a student. They were walking on the Pennsylvania railroad track. A west-bound train came along and held their attention so they did not notice the east-bound limited until it was upon them. Reesor was able to assist his companion from the track. In doing so he was struck by the locomotive and thrown 35 feet. He died as he was being carried to the hospital.

Mr. Reesor was the son of George Reesor, Mr. Reesor was killed at Valparaiso, Ind. Mr. Reesor was 22 years old and had been attending law school at Valparaiso three years. Mr. Reesor was a prominent Mason and

Odd Fellow and was born and reared at Ingleside. Mr. Reesor was to have returned home Friday for his vacation. He leaves two brothers, Messrs. Edward Reesor, of Bandana, and F. E. Reesor, of Ingleside, and four sisters, Mrs. J. M. Page, Mrs. Luther Perry and Misses Lena and Ethel Reesor, all of Ingleside.

The body arrived this morning and was taken to his home at Ingleside. The funeral will take place from the Baptist church at Ingleside Wednesday morning and burial will be at Newton's Creek cemetery, three miles north of here. The funeral will be in charge of the Masonic and Odd Fellows lodges.

HISGEN-GRAVES HEARST'S TICKET

Nominated at Convention of Independence Party.

Attempt to Indorse Bryan Almost Causes Riot and Author Is Not Supported.

SOME PLANKS IN PLATFORM.

Chicago, July 28.—For president—Thomas L. Hisgen, of Massachusetts. For vice-president—John Temple Graves, of Georgia.

The above ticket was nominated by the Independence party. Friends of Bryan made an effort during the night to bring his name before the convention and J. J. Sheppard, of Fort Scott, Kan., the man who attempted it, nearly produced a riot and narrowly escaped physical violence at the hands of the indignant delegates.

He was ruled out of order and afterwards hustled out of the hall.

The nomination of Hisgen was made on the third ballot, his chief competitors being Milford W. Howard, of Alabama, and John Temple Graves, of Georgia. Reuben R. Lyon, of New York received a complimentary vote on the first ballot and William Randolph Hearst had 49 friends who voted for him on the first two ballots.

The nomination of Graves was made unanimous, all other candidates having been withdrawn.

The Platform.

Following is an abstract of the Independence party platform on injunctions:

"We denounce the so-called labor planks of the Republican and Democratic platforms as a political bomb and contemptible trap, unworthy of national parties claiming to be serious and sincere.

"The Republican declaration that 'no injunction or temporary restraining order should be issued without notice, except where irreparable injury would result from delay' is an empty verbiage, for a showing of irreparable injury can always be made and is always made in ex parte affidavits.

"The Democratic declaration that 'injunctions should not be issued in any case in which injunctions would be not issued if no industrial dispute were involved' is meaningless and worthless.

"Such insincere and meaningless declarations place a low estimate upon the intelligence of the average American workman and exhibit either ignorance of, or indifference to, the real interests of labor.

Injunction Plank.

"The Independence party condemns the arbitrary use of the writ of injunction in contempt proceedings as a violation of the fundamental American right of trial by jury. We assert that in all actions growing out of dispute between employers and employees, concerning terms of conditions of employment, no injunction should issue until after a trial upon the merits, that such trial should be had before a jury, and that in the case of alleged contempt no person should be deprived of liberty without a trial by jury.

Distribution of Wealth.

"The Independence party believes the distribution of wealth is as important as the creation of wealth and indorses those organizations among the farmers and workers which tend to bring about a just distribution of wealth through good wages for the workers and good prices for the farmers.

DON'T WAIT. Take Advantage of a Paducah Citizen's Experience Before It Is Too Late.

When the back begins to ache, Don't wait until the backache becomes chronic. Till serious kidney troubles develop. Till urinary troubles destroy night's rest.

Profit by a Paducah citizen's experience.

J. W. Wootan, retired, of 1403 Burnett street, Paducah, Ky., says: "About seven years ago I gave a statement for publication telling of the great merit of Doan's Kidney Pills and what they had done for me after other remedies had failed. I was at that time a sufferer from kidney trouble and had been for several years. My rest at night was greatly broken and my health was much run down. I learned of Doan's Kidney Pills and procured a supply at DuBois Son & Co.'s drug store. I took them as directed and was greatly benefited. I now think even more highly of this remedy than I did at first as it has stood the test of time."

Remember the name—Doan's—and take no other.

ers and which protect the employer and consumer through an equality of prices for labor and for product, and we favor such legislation as will remove them from the operation of the Sherman anti-trust law."

The platform endorses the eight hour work day in public as well as private work and favors a department of labor. Following is the currency plank:

As to Currency.

"The Independence party declares the right to issue money and favors the establishment of a central government bank through which the money so issued shall be put into general circulation."

WILY SANDIKO

HAS ORGANIZED SOCIETY OF BACHELORS IN BULACAN.

May Be Another One of Those Filipino Murder Club Officials Are Watching.

Manila, July 29.—Under the innocent name of the Society of Bachelors, an organization is being formed in the province of Bulacan that is regarded by many of the Americans in the islands as forbidding trouble.

At the head of the new band is Governor Sandiko, a Filipino of great popularity and a former picturesque leader in the rebellion of the natives against the possession of the islands by the American forces. Since that time, Sandiko has been forgiven, and to the surprise of many, his election as governor of the province was approved by Governor General Smith. But even yet, Sandiko is regarded as a wily individual and the insular officials keep one eye on him most of the time.

The organization is growing very rapidly and has a membership of nearly 4,000, although it has been in existence but a short time. The object is said to be "fraternity among its members," but its organization closely resembles that of the Katipunan Society which once bred so much trouble in the islands. Its meetings are secret, affording ample opportunity for fervid speeches for independence.

When Governor General Smith was interviewed regarding the Society of Bachelors he said he attached little importance to the report of the organization. It is believed, however, that the Society is worrying him more than he cares to admit.

"I believe there is some such organization in Bulacan province," he continued, "and the way I explain its rise is that Governor Sandiko has socialistic ideas, and his organization of the young men of his province may be for the spread of such doctrines."

ELIMINATE GOULD

THAT IS TALK IN WALL STREET RAILROAD CIRCLES.

Banking Interests May Insist That Harriman Be Given Complete Control.

Chicago, July 29.—A New York special to the Record-Herald, says: Wall street and the railroad, and financial world is wrought up to the highest pitch over the extreme possibility of the elimination of George J. Gould from the galaxy of railroad magnates and the substitution of Edward H. Harriman in his stead. The matter became acute today when it was stated that Mr. Gould would return from Europe Tuesday and seek the aid of Kuhn, Loeb & company in refinancing and reorganizing his railway properties.

There are strong intimations that the banking interests will insist that Harriman be given control. Negotiations have been carried on for several months between Gould, Kuhn, Loeb & company and the Harriman interests concerning the Gould properties. As the negotiations now stand there is a fair probability that they will go through and that the result will be an entire change and reorganization of all the Gould lines in the east and the elimination of George J. Gould as the autocrat of the Gould system.

It is recognized in Wall street and even in circles closely associated with Mr. Gould that he cannot continue to stand alone. Before he sailed abroad Mr. Gould had many conferences in the matter of the Gould situation in the east with E. H. Harriman and also with Kuhn, Loeb & company, and while as yet nothing has been definitely done, the matter will be taken up again on Mr. Gould's return, and there is a fair probability that the idea will be carried through. The position of the Gould lines in the east, as all know, is precarious. The lines are in urgent need of relief, and most of them will get it through reorganization.

There is good reason for stating that Mr. Gould is anxious for the banking and financial support that would come from Kuhn, Loeb & company and E. H. Harriman. The deal will make Harriman the greatest railway king in history. He will be in absolute control of the vast systems from ocean to ocean and from the Great Lakes to the gulf. He will have power to dominate rates and other conditions. The only formidable competitor will be James J. Hill in the northwest.

CULEBRA CUT

WILL BE FINISHED IN THREE AND A HALF YEARS.

Removing Mountain With Steam Dredges Is Work Government Is Doing.

Washington, July 29.—In the digging of the Panama Canal it has always been considered that, outside of the construction of the big lock and dam works, the chief difficulty to be encountered is the great cut through the backbone of the American continent at Culebra. The problem was there presented of removing a mountain and by the aid of modern steam shovels, drills and dynamite the solution is being rapidly worked out. In fact, according to information which has reached the offices of the Isthmian Canal Commission here, over one-half of this great work has now been completed. This cut through the hills and mountains extends a distance of nine and one-half miles. At the highest point the original surface of the ground was 200 feet and a hole from 430 feet to 1,000 feet wide and 160

feet deep is being dug there. This work involved the excavation of 80,698,248 cubic yards of earth and stone. The old French company took out 12,000,000 cubic yards between 1881 and 1889; the new French company took out 10,000,000 cubic yards from 1893 to 1904 and since the Americans have taken charge of the work they have excavated 18,445,426 cubic yards. This leaves only 39,652,822 cubic yards yet to be removed, less than half of the total. In view of the fact that 11,191,488 yards were taken out last year after the Americans had got their machinery in operation and their organization perfected, the indications are that, at the same rate of progress, the Culebra Cut will be completed in three years and a half.

In the opinion of engineers here that will fix the date for the completion of the entire canal—in other words they think that the work on the other sections will be so timid as to be finished at the moment when the excavation is done. If they are correct in this the Panama Canal should be open for business in January, 1912.

If some women were not suspicious of their husbands, they wouldn't have anything to worry about.

The "Lake of Bays" Country.

Illustrated, has been issued by the Grand Trunk passenger department, telling of the beauties of the Lake of Bays district, in the "Highlands of Ontario." A new feature of this district is the new hotel—the Wawa—at Norway Point. The hotel itself has a page illustration reflecting the summer glories of woodland and water, with a brood of seven wild geese soaring skyward beyond the tower. The concise description embodies the story of a charming resort.

The very pretty duo tone photo engravings show the beauties of the new fairy land far more effectively than words can do. A copy can be obtained free on application to G. W. Vaux, 917 Merchants Loan and Trust Building, Chicago, Ill.

Thos. Cole was tried before Police Court Judge Cross, charged with selling liquors without a license, and as it developed he sold A. M. Laevison & Co., Cremo Temperance, Dr. Fizz and other non-intoxicating beverages, and as the evidence showed that these drinks were non-intoxicating, the jury on instructions of Judge Cross dismissed the case, which clearly proves that these beverages were non-intoxicating, and the claims of A. M. Laevison & Co., were sustained, and this decision is of much importance to A. M. Laevison & Co., and their numerous customers throughout this vicinity who are handling these beverages.

THOMAS W. JONES OF MEMPHIS DIES

Master Mechanic for N. C. & St. L. at That Place.

He Had Been Ill Many Months With Dropsy and Liver Trouble.

MRS. JOHN HUNT SUCCEEDS.

Mr. Thomas W. Jones, master mechanic of the N. C. & St. L. shops in Memphis, died at the home of his sister, Miss Addie Jones, 903 Jackson street at 7 o'clock this morning after a long illness with liver trouble and dropsy. The immediate cause of his death was blood poisoning.

Mr. Jones was 39 years old July 11, and was born and reared in Paducah. He was the son of Mr. and Mrs. J. H. Jones. Mr. Jones was an employee of the Illinois Central shops at Paducah for a number of years and six years ago he went to Memphis and took charge of the N. C. & St. L. shops there. He is survived by his wife and three sons, Gordon, Howell and Willard, and one brother, William Jones, of Minnesota, and four sisters, Misses Addie, Fannie, Daisy and Ruth, of Paducah.

The funeral will be held Friday afternoon at 2 o'clock at the residence of Miss Addie Jones, 903 Jackson street. The services will be conducted by the Rev. G. T. Sullivan, pastor of the Broadway Methodist church. The burial will be six miles in the country at the Wyatt graveyard.

Mrs. John Hunt, 63 years old, died yesterday afternoon at her home at Cecil, this county, after a lingering illness with tuberculosis. Mrs. Hunt had been a resident of the Cecil neighborhood for a number of years and was highly respected by all who knew her. She is survived by her aged husband, one daughter, Mrs. Lillie Beyer; one son, Mr. Charles Hunt, and one sister, Mrs. Katie Grimes all living in the Cecil neighborhood.

The funeral was held this morning at 11 o'clock and the burial was in the New Hope cemetery.

NOTICE TO PROPERTY OWNERS SEWER DIST. NO. 1

An ordinance providing for the compulsory connection with sanitary sewers in the present sanitary sewer district in the City of Paducah, Kentucky, and providing a penalty for the failure so to do.

Whereas, it is necessary as a sanitary measure that the premises of all property owners in the first sanitary sewer district in the City of Paducah, Kentucky, be connected with said sanitary sewer;

And whereas, it has been about five years since the sanitary sewer system in said city has been completed and put in use, and but a comparatively few of the property owners in said district have connected with said sewer, and if permitted to go on as matters now stand, some people will never connect their premises with said sewers.

Be it therefore ordained by the general council of the City of Paducah, Kentucky:

Section 1. That every person, firm, company or corporation, owning improved real estate within the first sanitary sewer district, or sanitary sewer district No. 1, of the City of Paducah, Kentucky, which is described as follows:

Beginning at the intersection of Fourth and Trimble streets; thence east with the center of Trimble street extended 206 feet, 3 inches; thence at right angles 409 feet 6 inches to the center of Clay street; thence at right angles east 206 feet 3 inches to the center of Third street; thence at right angles to a point half way between Madison and Harrison streets; thence at right angles east 206 feet 3 inches; thence at right angles south 412 feet, thence at right angles east 206 feet 3 inches to the center of Second street; thence with the center of First street south 206 feet 3 inches to the center of Jefferson street; thence at right angles towards the Ohio river 206 feet 3 inches; thence at right angles to the center of Washington street; thence at right angles west 206 feet 3 inches to the center of First street; thence at right angles south 206 feet 3 inches; thence at right angles westward 206 feet 3 inches; thence at right angles west with the center of Tennessee street 146 feet 3 inches; thence at right angles and with the center of Jones street extended; thence at right angles and with the center of Jones street and Jones street extended to a point one half way between Ninth and Tenth streets; thence at right angles and parallel to Ninth street to the center

of Trimble street; thence with the center of Trimble street to the center of Fourth street the point of beginning, shall connect the same with the sanitary sewers in said sanitary district No. 1 on or before the first day of May, 1908.

Section 2. Any person, firm, company or corporation owning vacant property within the sanitary sewer district, described in Section 1, of this ordinance, after the date mentioned in said section, that shall improve said vacant property or any part of same after said date, shall connect the same before the completion and occupation of said premises.

Section 3. Any person or persons who have a life estate in any of the improved property embraced in the sewer district described in Section No. 1, or that may own unimproved real estate in said district that may be improved as prescribed in said section, or any person, firm, company or corporation who are lessees of any improved or unimproved real estate in said sewer district for as many as ten years, shall connect the same as prescribed in said Section No. 1, with said sewers in said sewer district.

Section 4. Before any sewer connections are made, had or begun in the aforesaid sewer district, described in Section 1, of this ordinance, the owner of the premises desiring said sewer connection shall first get a permit from the sewer inspector to make said sewer connection. Said permit shall give the name of the owner of the premises, who is to make the connection when work is to commence and when same is to be completed.

Section 5. All materials of every kind and description, the manner of laying and the laying of all pipe necessary to make said connection, complete from the sanitary sewer in the street to and including the improvement or building or buildings on said premises shall be according to the present ordinances governing the same, and said ordinances must be strictly followed, and said work shall be done under the supervision of the sewer inspector and board of public works.

Section 6. Any person, firm, company or corporation violating any of the provisions of this ordinance, shall be deemed guilty of a misdemeanor, and upon conviction in the city court, shall be fined not more than \$20.00 or less than \$5.00 for each offense, and each day this ordinance, or any part of same is violated, shall be deemed a separate offense.

Section 7. All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed, and this ordinance shall take effect from

and after its adoption, approval and publication.

THIRD STREET METHODIST SUNDAY SCHOOL PICNIC

The Sunday school of the Third Street Methodist church will enjoy a picnic tomorrow at Gregory Heights, and a pleasant day in anticipation. The pupils, teachers, and friends will meet at the church and at 9 o'clock they will be transported to Gregory Heights on a special car. Dinner will be carried and served on

the ground, while the youngsters will enjoy a day of tree climbing and general frolic.

Mule Kick Broke Jaw.

Mayfield, Ky., July 29.—Mr. John Riley, west of Hickory Grove, was in the city Tuesday en route home from near Benton, where he went to attend the bedside of his brother, William Riley, who was kicked by a mule. Mr. Riley was plowing in the field

when he was kicked by the mule. He sustained a fracture of both sides of his lower jaw besides other injuries.

"Surprises are bound to occur in politics," said the observant citizen. "Yes," answered Senator Sorghum, "but the managers are getting it down so fine that the few delegates who get away can't interfere with the program."—Washington Star.

BIG DEMAND FOR FREIGHT CARS

Hopkinsville, Ky., July 29.—A message was flashed to every station agent along the Evansville-Nashville division of the Louisville & Nashville railroad, Saturday night, instructing them to keep all box cars moving as rapidly as possible; to rush all loaded cars to their destination and hasten their unloading and

to let no empty cars stand idle on the sidings, as every available car was now in constant demand to accommodate the shippers of the country.

This order comes as a most welcome one. Since the panic came on box cars had become more or less of a glut, and were to be seen standing about in nearly every yard. The order calling for them on account of increasing business is taken as one

of the most encouraging indications of returning prosperity and business confidence that could be given.

One thing that is making the demand greater for cars is to accommodate the grain crops. Wheat is already being marketed, and heavy shipments are being made, and this will be followed by corn, hay, tobacco, etc. Shipments of coal are also becoming heavier each day, consumers generally having profited

by past experiences with famines in this commodity, and are following the course which proved so satisfactory last winter, and are laying in their supply of fuel in advance of the cold weather.
